DOWNTOWN LOOP
 27 of IndyGo's 31 fixed routes converge in the downtown area on "The Loop" - Ohio Street to Capitol Avenue to Maryland Street to Delaware Street. Ohio Street at Meridian Street is the main hub for transfers. Almost all downtown attractions are walkable from The Loop.

BIKE N BUS 

All fixed route buses come equipped with a two- or three-unit bicycle rack. It is the rider's responsibility to unfold the bike rack, load and secure the bicycle, then return the bicycle rack to the stowed position (if removing the last bicycle from the rack). If the rack is full, you will not be allowed to bring the bike on-board. When exiting the bus, please use the front door and notify the operator that you will be removing your bike from the rack.

To see the most bikeable streets or major trails in Indy and where they intersect with IndyGo, check out IndyCog's Ride Guide!

TRIP PLANNING

Use the Google Maps app to easily plan your trip! All you need is your origin and destination and Google will do the rest. You can also use Google Maps on a computer or the Quick Trip Planner on every page of IndyGo.net for simple trip planning.

LIMITED SERVICE

All dashed lines on the map denote "limited service." This means that the route will not travel the dotted path for every trip, but instead at select times of the day or week. For more specifics refer to individual route maps.
